

Tips for Stress Management

Invest in Your Health

- Incorporate movement breaks when studying (i.e. take a walk or stretch)
- Incorporate regular exercise into your daily routine (i.e. biking, basketball, yoga, running)
- Get enough rest, 7-9 hours of sleep is best!
- Treat yourself to some self-care (i.e. explore the city, visit the beach, go on a hike, get a massage)
- Eat 3 meals a day with nutritious snacks in between

- Practice mindfulness through meditation or prayer
- Start a gratitude or appreciation journal
- Take a moment to color or draw
- Go outside to observe nature and your surroundings
- Notice each sensation when doing daily activities (i.e. doing the dishes, brushing teeth, taste of food)

Take a Mindful Moment

Build Connections with Others

- Call, text, or video chat with a friend or loved one
- Develop a positive support network of peers & mentors
- Practice random acts of kindness
- Volunteer in your community for a cause that's important to you
- Don't be afraid to seek professional help for additional care and support
